PROFILE

I am a well-rounded person with great problem solving skills and experience with a variety of programming languages and software tools. I am seeking internship opportunities for summer 2017.

EDUCATION

University of Toronto St. George Campus

2015 - 2019

H.B.Sc., Computer Science

Relevant Courses: Software Design, Theory of Computation, Data Structures and Analysis

SKILLS

Programming Languages: Java, Python, JavaScript, HTML5, CSS, C

Software Tools/Frameworks: Microsoft Office, Git, Android Studio, AngularJS, Node.js, SQL

Technical Skills: Algorithms, Data Structures, Databases, Software Design, Circuit Design, Logic Devices

EXPERIENCE

Peer Tutor

2014 - 2015

Taught math to a student that was having difficulties understanding the content.

Met twice a week to go over homework, prepare for test and answer any questions.

Offered tips on how to succeed in tests and assignments.

Computer Lab Volunteer at Leaside High School

2014

Worked on setting up a new computer lab at the school.

Installed and tested new computers.

PROJECTS

Cordially

2017

Calendar web app that allows users to manage their calendar and share it with others.

Users can then schedule meetings with other users by accessing their shareable link.

Tools: JavaScript, HTML, CSS, AngularJS, Node.js, MongoDB

CubeStack

2016

Voxel based sandbox game set in a procedurally generated island.

Players can build, mine and explore the game world.

Tools: Java

AWARDS

Stuart Morrison Computer Science Award

2015

This award is granted to the student with the top mark in Grade 12 Computer Science

Samuel Beatty Scholarship in Mathematics

2015

This award is presented to the graduating student who has the highest average in 3 maths (Functions, Calculus and Algebra)
